From 1st September 2014 Parent Partnership services (PPS) in every local authority evolved into information, advice and support (IAS) services. The type of support and who is entitled to receive it has significantly expanded. We are a statutory service. The obligations and expectations of our service are set out in chapter 2 of the Special Educational Needs and Disability Code of Practice: 0 to 25 years (January 2015). The standards expected of IAS services can be found in the IASSN quality standards. IAS services differ greatly from authority to authority, with variation in size, capacity and resources.
