

Learning to Read

We actively encourage a love of reading through our creative curriculum and through our structured teaching of reading during Individual and Guided Reading sessions each week. We will have a parent's meeting in September to explain how we teach reading and how you can help your child to progress. We also hold regular workshops for parents and children to share our teaching of phonics, writing and maths.

It is extremely important that you also listen to your child read as often as possible; we encourage you to read with your child on a daily basis.

You will be expected to hear your child read at least 5 times a week, recording a comment in their Reading Record each time. We will also record comments and suggestions every time we read with your child.
